Lab 10

Assignment 1

- Build a reusable **DataTable** Component that can be used to display a list.
- Use it to display the category and product lists in the dashboard.

Assignment 2

Install Jest and use it to test some simple functions with the `toBe()`, `toThrow()` matchers.

Assignment 3

Complete the order management features with the following requirements:

- ✓ User can view general order information and order details.
- ✓ User can update the order status.
