Lab 3

Assignment

1. Continue with VOW e-commerce web app:

- Write a function to simulate an API that returns a Product List
- Use `useEffect` and `useState` to display the Product List on the Home and Category Pages
- Similarly, write a function to simulate an API that returns a Category List
- Use `useEffect` and `useState` to display the Category List on Category Management Page
- Write HTML code for the Product management (show) page
- Create components for the page and import them into the project.

2. Use `useReducer` to create a To-do List web app
